SUBJECT INDEX TO VOLUME 53

2HxCB hepatic induction of EROD and cytochromes in trout, 313
Arsenic species and blackfoot disease, 85
As(V) toxicity in human erythrocytes, 345

Benzo[a]pyrene pharmacokinetics in rat, 507

Carboxylesterases and organophosphorus esters, 385
Chlorogenic acid, immune function, and cancer, 375
Comparative inflammation of three ultrafine metals, 423

Developmental toxicity of scrubbing solution, 211
Dietary cholestyramine reduces OTA toxicity, 231
Disposition of organic arsenicals in mouse, 95

Effect of glucan on murine lungs, 493

Fatty fish from the Baltic Sea and PCB in blood, 581
Free radical activity of fibers, 545
Fumonisin B_1 toxicity in rats, 135
Fungal metabolism of nitrofluoranthenes, 153

Gender differences in attitudes about fish safety, 181
GSH prevention of acetaminophen toxicity, 223
Guinea pig response to microbial agents, 5

Hepatic CYP2B induction by DDT analogs, 455

In vitro teratogenicity of MX, 607
Intestinal secretion of mercury, 615

Lipid peroxidation after methanol intoxication, 637
LPS and lead effects on IL-6 production, 357

Magnetic fields and mammary tumors, 401
Mercapturic acid formation in HepG2 cells, 651
Mutant gene expression in UV-exposed mice, 439

Nasal response to environmental tobacco smoke, 193

Organophosphates and presynaptic function, 531

PCN and other organochlorine contaminants in humans, 293
Pesticides exposure during formulation, 263

Racial differences in environmental attitudes, 255
Reproductive and growth effects of lead, 327
Reproductive screening of LAN distillate, 121

Salivary levels reflect free atrazine in plasma, 283
Selenium-induced leukopenia, 113
Silica and alveolar macrophage iNOS, 29
SP in neurons after silica exposure, 593
Styrene oxide metabolism in mice, 19

Topical medicaments and the LLNA, 563
Toxicity of new antismoking mouthwash, 47

Vascular injury and protein expression, 63
Vitamin E effect on dieldrin tumor promotion, 479
